

**Stop  
The Rot.**

---

**Swipe**

**Estimated global  
cost of corrosion:**

**\$2.5  
trillion.**

**Corroded surfaces  
contaminate food  
and drug processing  
environments.**

**Enhance sanitation  
and eliminate  
contamination  
from corrosion  
with materials  
proven not to rust.**

**Corrosion-resistant  
entrance doors  
stop the rot,  
thanks to:**

RODUCTION  
AREA

- Seamless, impervious fiberglass material
- Bacteria and moisture inhibiting cores
- Corrosion-resistant industrial coating
- Top-of-door seals against moisture

**ALLMARK**DOOR

All Doors. All Docks. All Service. All the Time.

**Corrosion-resistant fiberglass, hollow  
metal, stainless steel and FRP  
pedestrian doors built to overcome  
harsh environments.**
