

Safety Products

SANITATION STATIONS

Key Features

- 25-Liter Liquid Disinfectant Tank
- One-Move Hand Motion Sensor
- Double-Dual Rapid Spray Nozzles
- Red and Green Light Signals
- Secure Interlocking Technology

Major Benefits

- **Reliable Performance:**
Automatic, contactless hand sanitation station prevents the spread of infectious germs across hygienic industrial applications.
- **Advanced Safety:**
Double-dual rapid spray nozzles with 110° spraying angles completely sanitize both sides of hands for up to 30 people per minute.
- **Convenient Functionality:**
Real-time hand detection, confirmation signals, and interlocking door entry technology ensure sanitary room access.
