

### Safety Products

# TOUCHLESS ACTUATORS

## Key Features

- IP65-Rated Stainless Steel Enclosure
- Touchless Microwave Technology
- Illuminated Center and Audible Signaling
- Motion, Toggle, or Timed Detection
- 2 to 24-Inch Adjustable Sensing Zone

## Major Benefits

- **Proven Performance:**  
Touchless entry and exit activation prevents the spread of infectious germs in industrial applications, while improving access.
- **Custom Functionality:**  
Microwave sensing technology can be adjusted to preferred distances across all automatic door openings and models.
- **Enhanced Sanitation:**  
Wash-down resistant IP65-rated stainless-steel device safely meets the requirements of fast-paced sanitary environments.
